Address: Damascus, Syria

Objective

I specialize in building dynamic websites and developing AI models. My focus is on leveraging my skills in NLP and Node.js to create innovative solutions that enhance user experiences and support educational and technological growth. I am committed to combining my technical expertise with a passion for learning to deliver impactful, results-driven solutions.

Education

- **Bachelor's in Information Engineering Al-Sham Private University** – Fourth-year student, Information Engineering, specializing in Artificial Intelligence
-

Experience

Backend & API Development (Node.js):

- Developed and deployed multiple backend APIs, including:
 - Social media platform
 - Hospital management system
 - E-commerce platform

AI & NLP Projects:

- Built a range of chatbots for customer service and NLP tasks, including:
 - Sentiment analysis
 - Text generation
 - Machine translation
 - Text summarization

- LangChain and RAG implementations
-

Skills & Abilities

- **Programming & Development:** Node.js, Typescript, Express.js, NestJs, Python
- **Databases:** SQL, NoSQL
- **AI & Machine Learning:** NLP, Machine Learning, Deep Learning, RAG/LangChain
- **Tools & Others:** Git, Problem-solving
