Address: Damascus Syria

Objective

I specialize in building dynamic websites and developing AI models. My focus is on leveraging my skills in NLP and Node.js to create innovative solutions that enhance user experiences and support educational and technological growth. I am committed to combining my technical expertise with a passion for learning to deliver impactful, results-driven solutions

Experience

Developed and deployed multiple backend Api using Node.js, including

- A social media platform
- A hospital management system
- An e-commerce platform

Built a range of chatbots for customer service and NLP tasks, including

- Sentiment analysis
- Text generation
- Machine translation
- Text summarization
- Langchain and RAG

Education

I am currently in my fourth year of studying Information Engineering at Al-Sham Private University, with a focus on Artificial Intelligence
